

# International Society of Nonlinear Mathematical Physics <sup>1</sup>

## The Activities and Goals of this Society

19 November 2023

The ongoing and planned activities of the Society are the following:

- To support and promote Research and Teaching in the subject of Nonlinear Mathematical Physics worldwide.
- To practice and promote Free Open Access Publication of research results, by which we mean free for authors to publish their articles (hence no Article Processing Charges) and free for everyone to access and read the articles.
- Continue to publish the Diamond Open Access journal titled ” *Open Communications in Nonlinear Mathematical Physics*” (ISSN: 2802-9356) in Open Access format with no fees for it’s authors or readers. This journal was founded by its editorial board members in April 2021 and is published on the Episciences platform. For more information about this journal, please visit the journal’s website <https://ocnmp.episciences.org/>
- To organise Conferences, Workshops and small-group meetings in the subject of Nonlinear Mathematical Physics and its applications. The first Conference in this series is titled “*Open Communications in Nonlinear Mathematical Physics - 2024*” and will be held during 23 – 29 June, 2024, in Bad Ems, Germany. For more information regarding this Conference, please visit the Conference Website <https://euler-ocnmp.org/>
- To provide a forum and platform for discussions and information that may concern experts researchers and students in this subject, including discussions on journal publication models, issues regarding the Impact Factor of journals, the *h*-index of scientists and it implications, etc.
- To host and collect freely accessible Lectures, Seminars and Conference talks on the Society’s website, including Open Access Books.
- To publish Book Reviews and recommendations of course literature on the Society’s website.

<sup>1</sup>Gemeinnütziger Deutscher Verein (nicht e.V.).

**Anschrift:** International Society of Nonlinear Mathematical Physics, Auf der Hardt 27, 56130 Bad Ems, Deutschland. **Email:** Dr.Norbert.Euler@gmail.com.

- To provide useful links on relevant upcoming Events and Conference Calendars.
- To provide information regarding Academic Positions, Research Grant Opportunities, PhD Positions, current or upcoming Research Projects, as well as information or links to Applications and Innovations as a result of theories within the subject of mathematical physics.
- To publish a News Letter with information about the Society, pointing out its current and planned activities, including reports on former projects, etc.

### Some words from the President of the Society

*This Society came to life in Bad Ems, Germany, on the 4th of November 2023 with the general aim to support and promote Research and Teaching in the subject of Nonlinear Mathematical Physics worldwide. This Society has the juridical and tax status of a “Gemeinnütziger Verein” which, in our case, refers to the fact that it is a Non-Profit Association for the Development of Science and Research that aims to benefit the scientific community in Germany and internationally, and is operated selflessly by the management and its members. Due to this status, the Society can accept donations from individuals, organisations or companies, and provide an official tax-deductible receipt (the so-called “Spendenbescheinigung”) to the donors. The same applies for organisations and companies who wish to sponsor our Society.*

*In this context, I appeal to you for support of our Society and for you to apply for a membership to make it possible for us to realise the listed activities. Your support would be highly appreciated and it will definitely make a difference, especially during this early stage. Please do not hesitate to contact me personally if you have any questions or suggestions.*

*I wish to express my gratitude to all who are already supporting this Society. In particular, I thank the Editorial Board members of the journal “Open Communications in Nonlinear Mathematical Physics” (OCNMP) for their ongoing dedicated editorial work and especially for their solidarity and support during my resignation as the Editor in Chief of Journal of Nonlinear Mathematical Physics in October 2020, which then led to the founding of OCNMP in April 2021. In this respect, I also thank the team at Epi-sciences for hosting OCNMP on their platform and for their ongoing technical support.*

*Norbert Euler*

---

#### **Membership:**

I you wish to apply for membership in this Society, then please send an Email to Dr.Norbert.Euler@gmail.com.

**Name of the Association:** *International Society of Nonlinear Mathematical Physics*

**Founding Members:** Marianna Euler and Norbert Euler, November 4th, 2023

**Address:** Auf der Hardt 27, 56130 Bad Ems, Germany

**Contact Email Address:** Dr.Norbert.Euler@gmail.com
